

Tips for Choosing Photos for Expressions in Bronze

Choose original photos in black & white or color (**No photocopies**)

Choose photos with good contrast. Avoid washed out photos.

Photos that are out of focus, faded or need to be retouched because of scratches, tears or stains, etc. may result in extra charges.

If only a portion of a photo is to be used, that portion must be clearly specified (e.g. Are all of the people in the photo to be included? Which background images are essential? What should or can be omitted?)

Remove photos from mountings or frames.

Photo enlargements, low resolution and pixilated digital images will not produce the desired results.

Background photographs should be scenic such as: the ocean, a forest, etc.
